

Optimizing visiting processes
and **truck handling** on
company sites **via app**

- **On-site navigation:** Navigation including all traffic regulations and safety rules
- **Digital Pager (Chat):** Communication with truck drivers incl. automatic translations
- **Digital forms:** Implementation of mobile registrations / briefings
- **Construction Zone Management:** Administration and communication of construction areas and other special zones
- **Employee apps:** "Digital site map for your pocket" for orientation, information and navigation on the company site with additional features.
- **Analysis, interactive site maps, tracking** and much more

Quick to implement • Uncomplicated • Multilingual • Less expensive than hardware solutions • Already in use on 30+ sites

Your yard management software / WMS / SAP or
Site Guide Content Management System
